

Autobooks Payment Link

Autobooks offers the Payment Link to businesses that are looking for additional options to getting paid from their customers.

Every business that enrolls in Autobooks receives a unique and secure webpage link. Payments collected through the Payment Link are subject to the same fees and processing times as invoice payments, and like all Autobooks payments, settle directly into the business owner's checking account.

The Payment Link also comes in a Mobile App, available for Apple and Android devices. Once the app is downloaded, their mobile device now can be used to accept payments from customers face-to-face.

The screenshot shows a web interface for the Autobooks Payment Form. At the top, there are three tabs: "Payment Form" (selected), "Payments", and "Payment Form Settings". Below the tabs, there are two main sections. The first section is titled "Accept a payment" and contains the text "Enter your customer's payment information to accept a credit card, debit card, or ACH payment." followed by a blue button labeled "Accept a payment". The second section is titled "Share your Payment Form link" and contains the text "Copy your unique Payment Form link and send it to customers to allow them to pay online:" followed by the URL "https://app.autobooks.co/pay/kim-s-business" and a blue button labeled "Copy link".
