# Payment Form

For businesses that don't send invoices to get paid, Autobooks offers the Payment Form. The Payment Form is accessed through a payment link that businesses can share with their customers to allow customers to pay electronically.

Every business that enrolls in Autobooks receives a unique Payment Form link. Payments collected through the Payment Form are subject to the same fees and processing times as invoice payments, and all settle directly into the business customer's business checking account.

The Payment Form also comes in a Mobile App, available for Apple and Android devices. The business simply downloads the app, pastes the Autobooks Payment Link when prompted, and clicks Submit. Their mobile device now can be used to accept payments from customers face to face.

Customers can set up recurring payments through the Payment Form, too...which is perfect for non-profit businesses that rely on regular donations or businesses that charge customer membership fees.

When accepting payments through the payment form, standard Autobooks pricing applies to each transaction. Payments settle into the business checking account within 2-3 business days depending on when the transaction is initiated.

Businesses can also take payments over the phone from within Autobooks using the Accept a Payment feature.
